D2 HARD ROLL TOWEL DISPENSER

Double thick wall construction, contoured and rounded shape with heavy-duty lock. High-impact plastic body and smoked acrylic transparent cover with clear acrylic window. Dispenses one 8" diameter roll with 1.5" core. Features key-activated lock, lever-operated dispensing mechanism and stub roll feature. Cover opens 180° down, to facilitate loading, and incorporates a safety detent to prevent cover freefall. One per case.

Suggested mounting height is 48" maximum from the bottom of housing.

When installed properly and used with the corresponding product, this dispenser meets the ADA Standards for Accessible Design.

NOTE: Unless otherwise noted, suggested mounting height is the distance from the floor to the bottom of the dispenser.
